

drawback : (Imp part)

- Quality of EIA report : incomplete in analysis, false data, ($\because$ no centralised data bank)
Single Season data - Rapid EIA
- Conflict of interest : leads to biases $\because$ consultant paid by project proponent
- Expertise of consultant is doubtful/questionable : (Eg: Orissa - Reliance project
EIA entrusted to Dept of
Behrampur Univ - no expertise
on Olive Ridley Turtles near Orissa Coast)
- Bulky & technical report
- Not published in local language
- Community not involved, if involved not taken seriously.

Env^t. Appraisal procedure
