

<b>9. Fronts</b>	<b>152</b>
9.1 Condition for Frontogenesis	
9.2 Classification of Fronts	
<b>10. Jet Streams</b>	<b>154</b>
10.1 Properties of Jet Stream	
10.2 Types of Jet Streams	
10.3 Significance of Jet Streams	
<b>11. Cyclones</b>	<b>156</b>
11.1. Temperate cyclones	
11.1.1 Characteristics	
11.1.2 Genesis	
11.1.3 Significance of Extratropical cyclones on India's weather conditions	
11.2 Tropical Cyclones	
11.2.1 The conditions favourable for the formation and intensification of tropical storms are	
11.2.2 Source of Energy for Tropical Cyclones	
11.2.3 Salient features of Tropical Cyclones	
11.2.4 Structure of Tropical Cyclone	
11.2.5 Movement of Tropical Cyclones	
11.2.6 Recurving Cyclones	
11.2.7 Types of Tropical Cyclones	
11.2.8 Impacts of Tropical Cyclones on India	
11.2.9 Cyclone Prone Area of India	
11.2.10 Contrast between Temperate Cyclones and Tropical Cyclones	
11.2.11 Weather Conditions	
11.2. 12 Rainfall	
11.2.13 Tropical Cyclones and Climate Change	
11.3 Thunderstorms	
11.3.1 Structure of Thunderstorm	
11.3.2 Thunderstorm and Weather	
11.4 Tornado	
11.5. Waterspouts	
11.6 Anticyclones	
11.7 Naming of Tropical Cyclones	
<b>12. World Climate</b>	<b>165</b>
12.1 Climate	
12.2 Factors affecting Climate	
12.3 Koeppen's Scheme of Classification of Climates
