

Question 1: National Geographic channel in collaboration with Drinking Water Ministry has released a film about which government scheme?

- (a) Swachh Bharat Mission
- (b) Secure Himalaya Project
- (c) Green Skill Development Programme
- (d) National Clean Air Programme

Answer: Swachh Bharat Mission

Answer Explanation: *The National Geographic channel has released a film titled 'Swachh Bharat: India's Sanitary Revolution', in collaboration with the Union Ministry of Drinking Water & Sanitation.*

The film was recently premiered at a special screening for the Indian President and also on the NatGeo channel. The film is also made available on the YouTube channel of Swachh Bharat Mission Grameen. Many 'Ambassadors of cleanliness' share their connection with the scheme in the film.

Question 2: China is set to impose a ban on pork related imports from China after concerns regarding which disease?

- (a) Corona virus Disease
- (b) African swine fever
- (c) Porcine parvovirus
- (d) Mastitis

Answer: African swine fever

Answer Explanation: *China recently announced that it will impose a ban on imports of pigs, wild boar and pork related products from India.*

After India reported African swine fever (ASF) in Assam last month and nearly 14,000 deaths among pigs and wild boars in Assam, China is set to ban those products. This was released by Chinese state media Global Times amidst the border tensions between the countries.

Question 3: Which global organisation has adopted a new voting procedure involving secret ballots for its elections, amidst Covid-19 pandemic?

- (a) European Union
- (b) United Nations
- (c) World Health Organisation
- (d) North Atlantic Treaty Organisation

Answer: United Nations

Answer Explanation: *The United Nations General Assembly has recently adopted a new voting procedure for the upcoming election of new members of the Security Council.*

This change is due to the restrictions for large gathering and to ensure social distancing during the Covid-19 pandemic. Usually, the assembly meet in a horseshoe-shaped assembly
