

35. According to the passage, the impact of the discovery of the hyoid bone in the field of Archaeology could best be compared with which one of the following examples in another field?

1. The discovery and analysis of cosmic rays lend support to a widely accepted theory of the origin of the universe.
2. The original manuscript of a deceased 19th century author confirms ideas of the development of an important work of literature.
3. Newly revealed journal entries by a prominent Civil War era politician lead to a questioning of certain accepted historical interpretations about the conflict.

Which of the statements given above is/are correct?

- (a) 1 only
- (b) 1 and 2 only
- (c) 3 only
- (d) None of these

Direction: In question number 36, one statement is given followed by two conclusions. You have to consider the statements to be true even if they seem to be at variance from the commonly known facts. You have to decide which of the given conclusion follows from the given statements.

36. **Statement:**

Recent trends indicate that the number of child migrants in large cities is increasing. These children leave their families to join the ranks of urban poor doing odd jobs in markets, workshops, hotels or in service sectors.

Conclusions:

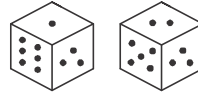

- I. Migration to big cities should be checked.
- II. The plight of poor children should be thoroughly studied.

- (a) If only conclusion I follows.
- (b) If only conclusion II follows.
- (c) If either I or II follows.
- (d) If neither I nor II follows.

37. One of the four — A, B, C and D committed a crime. A said, "I did it" B said, "I did not" C said, "B did it" D said, "A did it" If only one of them is liar, who is lying?

- (a) A
- (b) B
- (c) C
- (d) D

38. Two positions of a dice are given below:

When the number at the bottom is 2, what will be the number at the top?

- (a) 3
- (b) 5
- (c) 1
- (d) 6

Direction (39-42): Read the following information carefully and answer the questions given below:

1. There are five friends - Sujit, Ranjit, Mahesh, Aman and Roshan
2. Sujit is shorter than Ranjit but taller than Roshan
3. Mahesh is tallest
4. Aman is little shorter than Ranjit and little taller than Sujit

39. Who is the shortest?

- (a) Roshan
- (b) Mahesh
- (c) Sujit
- (d) None of these

40. If they stand in order of their heights, who will be in the middle?

- (a) Ranjit
- (b) Roshan
- (c) Aman
- (d) Sujit

41. If they stand in decreasing order of their heights, who will be in the second spot?

- (a) Aman
- (b) Sujit
- (c) Roshan
- (d) Ranjit
