Select the correct answer using the code given below.

- (a) 1 only
- (b) 2 only
- (c) Both 1 and 2
- (d) Neither 1 nor 2

27. The term "Einstein Ring" which was recently discovered by scientists is:

- (a) a proof to explain the theory of cosmic inflation, a concept of exponential expansion of space in the early universe just after the big bang.
- (b) a cosmological phenomena which occurs after collision of heavy bodies like Neutron stars and Black Holes in space.
- (c) a distorted image of a distant galaxy produced by the bending of the light rays due to another massive galaxy through gravitational lensing.
- (d) a cosmological phenomena which has hailed by scientists as a proof of dark matter which had remained elusive till Now.

28. Consider the following statements:

1. Tertiary coal is of younger age as compared to Gondwana Coal.
2. Both tertiary and gondwana coal have high percentage of moisture and sulphur.

Which of the statements given above is/are correct?

- (a) 1 only
- (b) 2 only
- (c) Both 1 and 2
- (d) Neither 1 nor 2

29. Which of the following is/are the characteristics of recession?

1. General fall in demand
2. High inflation
3. Fall in employment rate

Select the correct answer using the code given below.

- (a) 1 and 2 only
- (b) 1 and 3 only
- (c) 2 and 3 only
- (d) 1, 2 and 3
