TEST - 33 (IPM 2021)

	. The grounds for the proclamation of President's Rule are based on which of the following article(s) of			
	the Constitution?	2 2	0 4 1 1 0 50	4 4 4 4 250
	1. Article 356	2. Article 365	3. Article 360	4. Article 370
	Select the correct answer		C 1 2 and 2 anly	D 1 2 and 4 anly
60	A. 1 and 2 only	B. 3 and 4 only	C. 1, 2 and 3 only	
00.	5. The programmes of the Non-Cooperation Movement, as agreed by the Indian National Congres (INC), included which among the following?			
		rship from the local bodies		
	2. Establishment of national schools, colleges and private panchayat courts			
	3. Popularizing swadeshi		ate panenaj at courts	
	Select the correct answer			
	A. 3 only	B. 1 and 2 only	C. 2 and 3 only	D. 1, 2 and 3
69.		eval India, the terms cuttub	oudi and amaram were	used in association with
	A. Land titles	B. Royal processions	C. Agricultural fallows	D. Herders
70.	0. Consider the following statements.			
	1. It served an important port for commerce and east-bound naval expeditions of the Medieval Cholas			
	(9th–12th CE).			
	2. It was settled by the	Portuguese and, later, the	Dutch under whom it see	erved as the capital of Dutch
	Coromandel.	-		-
	Identify the port:			
	A. Bharuch	B. Mamallapuram	C. Dharanikota	D. Nagapattinam
71.	Match the following ma	jor UN regional groupings	acronyms with their re	gional affiliations:
	Grouping:	Regional affiliation		
	1. GRULAC:	Latin America		
	2. WEOG:	West Africa		
	3. EEG:	Eastern Europe		
	Select the correct answer	_		
	A. 1 and 3 only	B. 2 and 3 only	The state of the s	D. 1 only
72.		as a member development	bank from India unde	er the BRICS Interbank Co-
	operation Mechanism:			
	A EVIM Donle		D I 1 1 1 D 1	D 1 CT 1' (IDDI)
	A. EXIM Bank			ent Bank of India (IDBI)
	C. Reserve Bank of India		D. NABARD	ent Bank of India (IDBI)
73.	C. Reserve Bank of India Consider the following s			ent Bank of India (IDBI)
73.	C. Reserve Bank of India Consider the following s #119676	statements.	D. NABARD	
73.	C. Reserve Bank of India Consider the following s #119676 1. Fluorescent micro-sc	statements.	D. NABARD	e shorter than those of visible
73.	C. Reserve Bank of IndiaConsider the following s#1196761. Fluorescent micro-sc light.	opes use ultraviolet radiation	D. NABARD as whose wavelengths ar	e shorter than those of visible
73.	 C. Reserve Bank of India Consider the following s #119676 1. Fluorescent micro-sc light. 2. Electron microscopes 	statements. opes use ultraviolet radiation s use electron beams instead	D. NABARD as whose wavelengths ar	e shorter than those of visible
73.	 C. Reserve Bank of India Consider the following s #119676 1. Fluorescent micro-sc light. 2. Electron microscopes Select the correct answer 	opes use ultraviolet radiations use electron beams instead using the codes below.	D. NABARD as whose wavelengths ar of light rays to observe n	e shorter than those of visible nicroscopic particles.
	 C. Reserve Bank of India Consider the following s #119676 1. Fluorescent micro-sc light. 2. Electron microscopes Select the correct answer A. 1 only 	opes use ultraviolet radiations use electron beams instead using the codes below. B. 2 only	D. NABARD as whose wavelengths ar of light rays to observe a C. Both 1 and 2	e shorter than those of visible nicroscopic particles. D. Neither 1 nor 2
	 C. Reserve Bank of India Consider the following states #119676 1. Fluorescent micro-scalight. 2. Electron microscopes Select the correct answer A. 1 only The World Database of 	opes use ultraviolet radiations use electron beams instead using the codes below. B. 2 only	D. NABARD as whose wavelengths ar of light rays to observe a C. Both 1 and 2	e shorter than those of visible nicroscopic particles.
	 C. Reserve Bank of India Consider the following states and the following states are states as a finite state of the consideration of the following states are states as a finite state of the following states are states as a finite state of the following states are states as a finite state of the following states are states as a finite state of the following states are states as a finite state of the following states are states as a finite state of the following states are states as a finite state of the following states are states as a finite state of the following states are states as a finite state of the following states are states as a finite state of the following states are states as a finite state of the following states are states as a finite state of the following states are states as a finite state of the following states are states as a finite state of the following states are states as a finite state of the following states are states as a finite state of the following states are states as a finite state of the finite states are states as a finite state of the finite states are states as a finite state of the finite states are states as a finite state of the finite states are states as a finite state of the finite states are states as a finite state of the finite states are states as a finite state of the finite states are states as a finite state of the states are states as a finite state of the finite states are states as a finite state of the finite states are states as a finite state of the finite states are states as a finite state of the states are states as a finite state of the finite states are states as a finite state of the finite states are states as a finite state of the states are states as a finite state of the states are states as a finite state of the states are states as a finite state of the states are states as a finite state of the states are states as a finite state of the states are states as a finite state of the states are states as a finite state of the sta	opes use ultraviolet radiations use electron beams instead using the codes below. B. 2 only Key Biodiversity Areas here.	D. NABARD as whose wavelengths ar of light rays to observe a C. Both 1 and 2	e shorter than those of visible nicroscopic particles. D. Neither 1 nor 2
	 C. Reserve Bank of India Consider the following states #119676 1. Fluorescent micro-scalight. 2. Electron microscopes Select the correct answer A. 1 only The World Database of the A. Conservation Internation 	opes use ultraviolet radiations use electron beams instead using the codes below. B. 2 only Key Biodiversity Areas heronal	D. NABARD as whose wavelengths ar of light rays to observe an C. Both 1 and 2 osts data on Key Biodiv	e shorter than those of visible nicroscopic particles. D. Neither 1 nor 2 versity Areas (KBAs) under
	 C. Reserve Bank of India Consider the following states #119676 1. Fluorescent micro-scalight. 2. Electron microscopes Select the correct answer A. 1 only The World Database of the A. Conservation International B. BirdLife International 	opes use ultraviolet radiations use electron beams instead using the codes below. B. 2 only Key Biodiversity Areas he onal and International Union for	D. NABARD as whose wavelengths ar of light rays to observe an C. Both 1 and 2 osts data on Key Biodiv	e shorter than those of visible nicroscopic particles. D. Neither 1 nor 2 versity Areas (KBAs) under
	 C. Reserve Bank of India Consider the following states #119676 1. Fluorescent micro-scalight. 2. Electron microscopes Select the correct answer A. 1 only The World Database of the A. Conservation International B. BirdLife International C. World Wildlife Fund (opes use ultraviolet radiation use electron beams instead using the codes below. B. 2 only Key Biodiversity Areas he onal and International Union for WWF)	D. NABARD as whose wavelengths ar of light rays to observe an C. Both 1 and 2 osts data on Key Biodiv	e shorter than those of visible nicroscopic particles. D. Neither 1 nor 2 versity Areas (KBAs) under
74.	 C. Reserve Bank of India Consider the following states and the following states are states as a finite state of the states are states as	opes use ultraviolet radiation use electron beams instead using the codes below. B. 2 only Key Biodiversity Areas had and International Union for WWF) onment programme (UNEP)	D. NABARD as whose wavelengths ar of light rays to observe in C. Both 1 and 2 osts data on Key Biodicate Conservation of Nature 1.	e shorter than those of visible nicroscopic particles. D. Neither 1 nor 2 versity Areas (KBAs) under
74.	 C. Reserve Bank of India Consider the following states #119676 1. Fluorescent micro-scalight. 2. Electron microscopes Select the correct answer A. 1 only The World Database of the A. Conservation International B. BirdLife International C. World Wildlife Fund (D. United Nations Environal) Which of the following in 	opes use ultraviolet radiation use electron beams instead using the codes below. B. 2 only Key Biodiversity Areas he onal and International Union for WWF) omment programme (UNEP) is/are ozone depleting agent	D. NABARD as whose wavelengths ar of light rays to observe in C. Both 1 and 2 osts data on Key Biodivathe Conservation of Naturals?	e shorter than those of visible nicroscopic particles. D. Neither 1 nor 2 versity Areas (KBAs) under
74.	 C. Reserve Bank of India Consider the following state #119676 1. Fluorescent micro-scalight. 2. Electron microscopes Select the correct answer A. 1 only The World Database of the A. Conservation International B. BirdLife International C. World Wildlife Fund (D. United Nations Environment Which of the following in 1. Iodine oxide 	opes use ultraviolet radiation use electron beams instead using the codes below. B. 2 only Key Biodiversity Areas he onal and International Union for WWF) omment programme (UNEP) is/are ozone depleting agent 2. Iodine dioxide	D. NABARD as whose wavelengths ar of light rays to observe in C. Both 1 and 2 osts data on Key Biodicate Conservation of Nature 1.	e shorter than those of visible nicroscopic particles. D. Neither 1 nor 2 versity Areas (KBAs) under
74.	C. Reserve Bank of India Consider the following s #119676 1. Fluorescent micro-sc light. 2. Electron microscopes Select the correct answer A. 1 only The World Database of the A. Conservation Internati B. BirdLife International C. World Wildlife Fund (D. United Nations Enviro Which of the following is 1. Iodine oxide Which of the above is/are	opes use ultraviolet radiation use electron beams instead using the codes below. B. 2 only Key Biodiversity Areas he onal and International Union for WWF) omment programme (UNEP) is/are ozone depleting agent 2. Iodine dioxide e correct?	D. NABARD as whose wavelengths ar of light rays to observe in C. Both 1 and 2 osts data on Key Biodivathe Conservation of Natural Strategy (1988). 3. Diiodine tetroxide	e shorter than those of visible nicroscopic particles. D. Neither 1 nor 2 versity Areas (KBAs) under are (IUCN)
74. 75.	C. Reserve Bank of India Consider the following s #119676 1. Fluorescent micro-sc light. 2. Electron microscopes Select the correct answer A. 1 only The World Database of the A. Conservation Internati B. BirdLife International C. World Wildlife Fund (D. United Nations Enviro Which of the following i 1. Iodine oxide Which of the above is/are A. 1 only	opes use ultraviolet radiation use electron beams instead using the codes below. B. 2 only Key Biodiversity Areas he onal and International Union for WWF) onment programme (UNEP) is/are ozone depleting agent 2. Iodine dioxide correct? B. 2 and 3 only	D. NABARD as whose wavelengths ar of light rays to observe in C. Both 1 and 2 osts data on Key Biodisthe Conservation of Natural Street, and 2 only	e shorter than those of visible nicroscopic particles. D. Neither 1 nor 2 versity Areas (KBAs) under
74. 75.	C. Reserve Bank of India Consider the following s #119676 1. Fluorescent micro-sc light. 2. Electron microscopes Select the correct answer A. 1 only The World Database of the A. Conservation Internati B. BirdLife International C. World Wildlife Fund (D. United Nations Enviro Which of the following i 1. Iodine oxide Which of the above is/are A. 1 only Arrange the following e	opes use ultraviolet radiation use electron beams instead using the codes below. B. 2 only Key Biodiversity Areas had and International Union for WWF) onment programme (UNEP) is/are ozone depleting agent 2. Iodine dioxide e correct? B. 2 and 3 only vents in chronological order	D. NABARD as whose wavelengths ar of light rays to observe in C. Both 1 and 2 osts data on Key Biodisthe Conservation of Natural Street, and 2 only	e shorter than those of visible nicroscopic particles. D. Neither 1 nor 2 versity Areas (KBAs) under are (IUCN)
74. 75.	C. Reserve Bank of India Consider the following s #119676 1. Fluorescent micro-sc light. 2. Electron microscopes Select the correct answer A. 1 only The World Database of the A. Conservation Internati B. BirdLife International C. World Wildlife Fund (D. United Nations Enviro Which of the following i 1. Iodine oxide Which of the above is/are A. 1 only Arrange the following e 1. Beginnings of the reign	opes use ultraviolet radiation use electron beams instead using the codes below. B. 2 only Key Biodiversity Areas he onal and International Union for WWF) omment programme (UNEP) is/are ozone depleting agent 2. Iodine dioxide correct? B. 2 and 3 only vents in chronological order of Ashoka	D. NABARD as whose wavelengths ar of light rays to observe in C. Both 1 and 2 osts data on Key Biodisthe Conservation of Natural Street, and 2 only	e shorter than those of visible nicroscopic particles. D. Neither 1 nor 2 versity Areas (KBAs) under are (IUCN)
74. 75.	C. Reserve Bank of India Consider the following s #119676 1. Fluorescent micro-sc light. 2. Electron microscopes Select the correct answer A. 1 only The World Database of the A. Conservation Internati B. BirdLife International C. World Wildlife Fund (D. United Nations Enviro Which of the following i 1. Iodine oxide Which of the above is/are A. 1 only Arrange the following e 1. Beginnings of the reign 2. Rise of Mahajanpadas	opes use ultraviolet radiation use electron beams instead using the codes below. B. 2 only Key Biodiversity Areas had and International Union for WWF) omment programme (UNEP) is/are ozone depleting agent 2. Iodine dioxide is correct? B. 2 and 3 only in chronological order of Ashoka in the Indian subcontinent	D. NABARD as whose wavelengths ar of light rays to observe in C. Both 1 and 2 osts data on Key Biodivate Conservation of Natural Str. 3. Diiodine tetroxide C. 1 and 2 only or:	e shorter than those of visible nicroscopic particles. D. Neither 1 nor 2 versity Areas (KBAs) under are (IUCN)
74. 75.	C. Reserve Bank of India Consider the following s #119676 1. Fluorescent micro-sc light. 2. Electron microscopes Select the correct answer A. 1 only The World Database of the A. Conservation Internati B. BirdLife International C. World Wildlife Fund (D. United Nations Enviro Which of the following i 1. Iodine oxide Which of the above is/are A. 1 only Arrange the following e 1. Beginnings of the reign 2. Rise of Mahajanpadas 3. Rise of Chalukyas in K	opes use ultraviolet radiation use electron beams instead using the codes below. B. 2 only Key Biodiversity Areas he onal and International Union for WWF) Inment programme (UNEP) Is/are ozone depleting agent 2. Iodine dioxide correct? B. 2 and 3 only Vents in chronological order of Ashoka in the Indian subcontinent carnataka and Pallavas in Tar	D. NABARD as whose wavelengths ar of light rays to observe in C. Both 1 and 2 osts data on Key Biodivate Conservation of Natural Str. 3. Diiodine tetroxide C. 1 and 2 only or:	e shorter than those of visible nicroscopic particles. D. Neither 1 nor 2 versity Areas (KBAs) under are (IUCN)
74. 75.	C. Reserve Bank of India Consider the following s #119676 1. Fluorescent micro-sc light. 2. Electron microscopes Select the correct answer A. 1 only The World Database of the A. Conservation Internati B. BirdLife International C. World Wildlife Fund (D. United Nations Enviro Which of the following i 1. Iodine oxide Which of the above is/are A. 1 only Arrange the following e 1. Beginnings of the reign 2. Rise of Mahajanpadas 3. Rise of Chalukyas in K 4. Beginning of Gupta ru	statements. opes use ultraviolet radiation use electron beams instead using the codes below. B. 2 only Key Biodiversity Areas heronal and International Union for WWF) omment programme (UNEP) is/are ozone depleting agent 2. Iodine dioxide a correct? B. 2 and 3 only vents in chronological order of Ashoka in the Indian subcontinent tarnataka and Pallavas in Tarlee	D. NABARD as whose wavelengths ar of light rays to observe in C. Both 1 and 2 osts data on Key Biodivate Conservation of Natural Str. 3. Diiodine tetroxide C. 1 and 2 only or:	e shorter than those of visible nicroscopic particles. D. Neither 1 nor 2 versity Areas (KBAs) under are (IUCN)
74. 75.	C. Reserve Bank of India Consider the following s #119676 1. Fluorescent micro-sc light. 2. Electron microscopes Select the correct answer A. 1 only The World Database of the A. Conservation Internati B. BirdLife International C. World Wildlife Fund (D. United Nations Enviro Which of the following i 1. Iodine oxide Which of the above is/are A. 1 only Arrange the following e 1. Beginnings of the reign 2. Rise of Mahajanpadas 3. Rise of Chalukyas in K	statements. opes use ultraviolet radiation use electron beams instead using the codes below. B. 2 only Key Biodiversity Areas heronal and International Union for WWF) omment programme (UNEP) is/are ozone depleting agent 2. Iodine dioxide a correct? B. 2 and 3 only vents in chronological order of Ashoka in the Indian subcontinent tarnataka and Pallavas in Tarlee	D. NABARD as whose wavelengths ar of light rays to observe in C. Both 1 and 2 osts data on Key Biodivate Conservation of Natural Str. 3. Diiodine tetroxide C. 1 and 2 only or:	e shorter than those of visible nicroscopic particles. D. Neither 1 nor 2 versity Areas (KBAs) under are (IUCN)
74. 75.	C. Reserve Bank of India Consider the following s #119676 1. Fluorescent micro-sc light. 2. Electron microscopes Select the correct answer A. 1 only The World Database of the A. Conservation Internati B. BirdLife International C. World Wildlife Fund (D. United Nations Enviro Which of the following i 1. Iodine oxide Which of the above is/are A. 1 only Arrange the following e 1. Beginnings of the reign 2. Rise of Mahajanpadas 3. Rise of Chalukyas in K 4. Beginning of Gupta ru Select the correct answer A. 2314	opes use ultraviolet radiation use electron beams instead using the codes below. B. 2 only Key Biodiversity Areas he onal and International Union for WWF) omment programme (UNEP) is/are ozone depleting agent 2. Iodine dioxide correct? B. 2 and 3 only vents in chronological order of Ashoka in the Indian subcontinent tarnataka and Pallavas in Tarle using the codes below. B. 3124	D. NABARD as whose wavelengths ar of light rays to observe in C. Both 1 and 2 osts data on Key Biodivate Conservation of Natural Str. 3. Diiodine tetroxide C. 1 and 2 only or: mil Nadu C. 1234	e shorter than those of visible nicroscopic particles. D. Neither 1 nor 2 versity Areas (KBAs) under are (IUCN) D. 1, 2 and 3
74. 75.	C. Reserve Bank of India Consider the following s #119676 1. Fluorescent micro-sc light. 2. Electron microscopes Select the correct answer A. 1 only The World Database of the A. Conservation Internati B. BirdLife International C. World Wildlife Fund (D. United Nations Enviro Which of the following i 1. Iodine oxide Which of the above is/are A. 1 only Arrange the following e 1. Beginnings of the reign 2. Rise of Mahajanpadas 3. Rise of Chalukyas in K 4. Beginning of Gupta ru Select the correct answer A. 2314	opes use ultraviolet radiation use electron beams instead using the codes below. B. 2 only Key Biodiversity Areas he onal and International Union for WWF) omment programme (UNEP) is/are ozone depleting agent 2. Iodine dioxide correct? B. 2 and 3 only vents in chronological order of Ashoka in the Indian subcontinent tarnataka and Pallavas in Tarle using the codes below. B. 3124	D. NABARD as whose wavelengths ar of light rays to observe in C. Both 1 and 2 osts data on Key Biodivate Conservation of Natural Str. 3. Diiodine tetroxide C. 1 and 2 only or: mil Nadu C. 1234	e shorter than those of visible nicroscopic particles. D. Neither 1 nor 2 versity Areas (KBAs) under are (IUCN) D. 1, 2 and 3
