

PUB - AD As Science

Wilson did not only want a separate discipline but also propounded what the discipline should do and how it should do. That is pub ad as a discipline should build best tools and tactics following scientific methods without science, ~~best~~ tools and techniques could not be developed. Therefore he emphasised for science of admin.

His relevance was that,

1. Admin was not structured on the basis of scientific structure at that time.
2. Scientism was needed for objectivity and efficiency.
3. His emphasis was also to make public adm. business like and according to him mgt itself result into propagation of science as the field of Mgt is also a field of science.
4. By science his main aim was not only to develop theory but also the theory should provide practical solutions to problems of Pub ad is mainly.

Challenges in Implementation of Pub ad.

> BUSINESS LIKE — Professionalism

The field of admin is field of business.
Pub-ad should be business like.

Since Wilson's main concern was to run govt efficiently, he found in business admin, some positive traits which could be helpful in enhancing efficiency of pubad, like.
