

Explanation: Option B is correct. Pox 186 is the first ever galaxy to be found in a "blow-away" state. Blowing away means that the hydrogen clouds around the galaxy have been removed, allowing the high energy light to escape. The findings confirm that a blow-away is possible, furthering the idea that small galaxies were primarily responsible for the reionization of the Universe and giving more insight into how the Universe became what it is today.

Q. Consider the following pairs:

Sikh Guru	Contribution
1. Guru Angad	Gurumukhi
2. Guru Hargobind	Khalsa
3. Guru Gobind Singh	Akal Takhat
4. Guru Ram Das	Harmandir Sahib

Which of the pairs given above are correctly matched?

- (a) 1 and 2 only
- (b) 2 and 3 only
- (c) 3 and 4 only
- (d) 1 and 4 only

Answer: d

Explanation: In News: Recently, Sri Akhand Path has been inaugurated at Gurdwara Guru Ke Mahal to mark the 400th Prakash Purab (birth centenary) of Guru Tegh Bahadur.

Pair 1 is correctly matched: Guru Angad (1504-1552) was the second Sikh guru and he invented Gurumukhi (language of the Guru).

Pair 2 is not correctly matched: Guru Hargobind (1595-1644) was the sixth Sikh guru and erected Akal Takhat (throne of eternal God) and he established two swords, Miri-Piri (representing soldiers and saints).

Pair 3 is not correctly matched: Guru Gobind Singh (1666-1708) was the tenth and last Sikh guru and he introduced Khalsa (military group of men and women).

Pair 4 is correctly matched: Guru Ram Das (1534-1581) was the fourth Sikh guru and he started the construction of the Harmandir Sahib (now known as the Golden Temple) at Amritsar.
