

How capitalists started developing?

Historically there has been a nexus between the capitalists & kings.

Reason of Nexus,

Common enemy -

1) There is a class conflict betⁿ capitalist & Feudal lord.

feudal lords are rent seeking class. +

2) capitalist will require serfs to work in their factories as a worker.

feudal lord would not accept the liberation of the serfs.

Similarly the national king which is trying to establish its power has to meet the challenges posed to his authority by,

- ① Local lords.
- ② The church.

Kings also needed resources to wage war against the lords. Capitalists could provide the resources.

Divisions started within the church (Protestant revolution). In comparison to catholic religion, protestant religion has been more liberal.

Thus capitalist provided money power, kings muscle power & the protestant religion ideological power.

The combination of forces defeated the other combination.

money	capitalists	vs.	catholic church
ideology	Protestants		feudal lord.
muscle	king		
	serfs
